For : Adults (age requirement starts at 14, or with permission from instructor)

## Swing

SIX Count Swing is by far the easiest form of East Coast Swing. Class starts out with music from the Big Band Era and moves through the other forms like "Wake Up Little Susie" from the 50's. Some of you might just remember those tunes! This is great fun for all!

## Latin

Salsa and Merengue have got to be the most fun you'll have all week! Both dances are very popular in the valley and are something that students can learn quickly. Start out with Merengue, the easy-to-learn basic step that puts you on the road to more complex moves. Salsa, the more energetic dance, is based on Mambo. Don't miss the fun!

## Argentine Tango

Argentine Tango is becoming a worldwide sensation. This enchanting dance is subtle and sophisticated. You will be learning a basic system that will enable you to dance anywhere in the world and still turn heads. This is the most graceful and elegant dance there is. Start out with easy walking steps and then progress to the more exciting combinations.
